

## Don't wait to save time and money, listen to my confession and learn how to improve!

### How are your Corrective Actions treating you? How are you treating your Corrective Actions?

I have a confession, I own a treadmill. I have another confession, I use it each week to dry my laundry! I really thought the treadmill and I would have a wonderful relationship together. We did. Once.

Then, something happened, I don't know what it was, we just drifted apart. Now, I visit the treadmill weekly, draping my wet laundry knowing that it will be dry in just a few short hours. This wasn't how I thought it would be. I thought the treadmill and I had a good relationship of give-and-take. I put in the energy and it provided me with an ROI on that investment, benefits that made a difference. I feel sad that I don't see the benefits that I had when I used the treadmill properly.

### Why am I telling you this? I want to you learn from my mistake.

We have so many improvement tools we can use that can save us time and money, but, like the treadmills in our basements, tools are only good if we use them right. Corrective Actions can save your company time and money, but, like the treadmill, you have to be willing to use it regularly, and use it right.

**Does your Corrective Action program seem to be collecting dust (or laundry)? Is it neglected like the treadmill? If so, then call us and we can help.**

Gorveatte Consulting Inc. can help kick start your Corrective Action process and have you up and running in no time! With one-on-one coaching (virtual or in-person), you will learn how to write amazing corrective actions that can save you time and money, now and into the future. Give us four hours and let us energize your Corrective Actions. So what are you waiting for?

### Now Offering Virtual Classes!

#### ISO 9001:2015 Internal Auditing

**Can't find the time to train your auditors?  
Let us help!**

Did you know many ISO 9001 Internal Audit Classes are 3 or more days? Our cost-effective and time-efficient TWO-DAY class will introduce participants to the ISO 9001:2015 Standard and

auditing best practices. Better yet, this is offered remotely with pdf handouts and a workbook for hands-on learning.

Still not convinced? How about our Small Class policy? Yes, we limit our class sizes to ensure all participants receive the time and attention they need.
