New Year! New QMS!

It's a new year and this year will be great.

In January, we mark a new year. It's a time to look back on the years that have passed and see what happened, and what we can look forward to in the future.

It was two years ago this January that I started rock drumming, picking up drumsticks for the first time in my life. Yes, I am the ISO 9001 Consultant who rocks to the tunes of AC/DC, Kiss, and most recently, ZZ Top. This new skill has been fun and exciting. I met new people, learned new beats and patterns and I now listen to music in a whole new way. Each time I play I remind myself of some advice I always give to my auditing students: that all skills need to be practiced, "use it or lose it".

January is a good time to revisit your annual audit schedule, look at your Quality Management System documentation, and take the time to audit your processes - maybe you can use your well-practiced audit skills to see your QMS in a whole new way too!
