

Gorveatte Consulting Inc. Bonus Offer

By now, you may have heard about our free course, “Remote Audits: Worthless or Worthwhile?” and today we’d like to extend to you this limited-time BONUS with our next-level course:

Strategies for Remote Audit Success Online Course Limited-Time Bonus Offer

**Use the below links to enroll in our course before
March 25, 2021, and receive the Interactive Master
Checklist (a \$20 value) for free!**

Enroll in the Mid-Level Course for only \$29*

Enroll in the Mentor Level Course for only \$79*

*Original prices USD: \$49 for Mid-Level and \$99 for Mentor-Level.
The prices above expire on March 25, 2021, so act quickly!

Why should you enroll?

This course applies to...

- Doing a wide variety of audits, including internal audits, supplier audits, registrar audits, regulatory compliance audits, and more
- Auditing any management systems standard (e.g., ISO 9001, ISO/IEC 17025, ISO 14001, ISO 45001, plus others)
- Getting specific in evaluating risks for different types of remote audits and planning to manage those risks

Our course will:

- Explain 8 main risk factors related to doing remote audits.
- Provide a risk assessment process so you can tailor your approach for specific audits.
- Summarize the risk factors in the context of what to manage before, during, and after a remote audit.

• Provide checklists for each of the 8 main risk factors to help you tailor your approach for specific audit constraints.

More Information

If you enroll in the [Mid-Level](#) course, you get the [Interactive Master Checklist](#) (a \$20 value included as a free, limited-time BONUS).

This spreadsheet combines the questions from the 8 checklists in this course and provides a process to evaluate the risks for a specific audit. With this spreadsheet, you can:

- Record the specific circumstances for an audit,
- Evaluate the initial risk,
- Define the controls to apply to the remote audit (or audit type) and
- Evaluate the residual risk to determine to do or not do the audit using remote auditing techniques.

This checklist helps to communicate the controls to be applied for the audit to those involved and capture lessons learned. Pie and bar charts help visualize the value gained by the controls which helps support your decision process.

If you enroll in the [Mentor Level](#) course, you also get the [Master Checklist](#) described above, plus [access to Q&A sessions with the instructors](#).

We hope you take advantage of this offer before it expires!
Bye for now,

Susan Gorveatte
Diana Baldi
