"Ch-ch-changes"!

David Bowie said it best in 1971, "Ch-ch-changes", but this time we don't have to ["Turn and face the strange"](#). Yes, that's a link to the YouTube song, and it will probably be the link that gets clicked the most in this newsletter LOL! You can also [email me here](#) with your favourite David Bowie song :)

It's here, the DRAFT ISO 9001:2025 in preparation for the FDIS, and finally, ISO 9001:2026. Comments are being submitted now, so remember, this can all change, but for now, this is what we know:

There will be a stronger focus on Quality and Ethics Culture
There will be a greater expansion of Risks and Opportunities
There will be increased focus on Awareness and Organizational Knowledge

Are you looking to prepare for the change? [Set up your consultation with Gorveatte Consulting Inc.](#)

Seven Secrets to Rocking the Audit Stage with **R-E-S-P-E-C-T**

Discover your audit superpowers, pack your audit toolkit, and rock your next audit!

When Cyndi Lauper shouted, "Girls Just Want to

Have Fun!" I am not sure she meant having fun while conducting audits, but that's the song I hear in my head each time I start an Opening Meeting. I realised recently I have been auditing across four decades, auditing was different back then, cue Pat Benatar's, "We Belong", and I've learned a few secrets along the way.

2025 ASQ Inspection Division & ASQ Toronto Section Fall Conference

ASQ hit one out of the park last month by bringing together professionals, thought leaders, and innovators at the intersection of quality and emerging technologies. Held on a September Saturday, albeit a risky move - it was one that paid off - this event was standing room only as participants learned about AI and networked together. Thank you to ASQ Toronto, the ASQ Inspection Division, and to all volunteers who pulled this one together.

(L to R: Denis Devos, Susan Gorveatte, and Sheri Seabolt)
