### Finally, Audit Like a Jedi Knight is coming to you!

While presenting Audit Like a Jedi Knight at the World Conference on Quality and Improvement (WCQI), I had the chance to take almost 200 people on a journey to a Galaxy far, far away. It was so much fun to be asked to return to present this important information and with so many conference attendees wearing FIRST TIME ATTENDEE ribbons, it was a pleasure to have a room full of new Rebellion recruits as we learned how to Audit Like a Jedi Knight.

We talked about the soft skills of auditing and about what it takes to be a successful auditor not just a trained auditor. Yes, those are different. We learned how to practice positive communication skills in the internal audit to make the audit the very best that it can be for your organization. To do that, it's important to be able to appreciate the value of building a strong and positive report.

When I started looking at the Jedi Code and being an auditor, trainer, and consultant that I've been for the last 25 years I had the opportunity to really see you know the alliance between the Jedi mind and the auditor mind. I realized there is a great alignment between the Jedi Code and the basic principles of auditing of ISO 19011:2018.
